

You knew vaccination was important for your infant.

Did you know vaccination is also important for your preteen or teen?

Help protect your son or daughter from preventable diseases:

- The Centers for Disease Control and Prevention (CDC) recommends certain vaccines for children who are 11 and 12 years old.
- Your son or daughter may need up to 4 shots.

Take the next step in prevention.

Ask us today what shots your preteen or teen needs.
